

# INTERNATIONAL EASTERN STAR TEMPLE

Washington, D. C., October 1, 1935

Dear Members of the Eastern Star:

Our dream is about to be realized, The International Eastern Star Temple has become a reality, has taken on form, and "is a thing of beauty" to be "a joy forever".

The enclosed excerpts from The Washington Post of Saturday, September 14, 1935, tell the story and the pictures on this announcement show something of the magnificent mansion which your Temple Committee has purchased under the terms of the Resolution adopted at the Triennial Assembly in Tampa, which gave them the authority.

The Plan is now well under way and we ask your cooperation in securing funds to properly maintain this Temple befitting the high standards set by our Order. In the past we have been delayed in securing funds because we had nothing to show. Now there is something to not only visualize but to see, and to see is to make one feel a great pride in being a part builder and part owner in such a fine undertaking. We are being complimented on every hand for our foresight and good fortune in securing one of the most outstanding buildings erected in the United States.

It is now the desire of those in charge to renovate, put in order, make the necessary changes, furnish suitably, and dedicate this Temple before the next Triennial Assembly in September 1937. This will take the whole-hearted and concerted effort of every loyal member.

Will you not assist our Most Worthy Grand Matron and Patron, and the Temple Committee to carry out this worth while and long cherished Temple Plan?

MINNIE E. KEYES,  
Right Worthy Grand Secretary

FRANCES HAUN,  
Most Worthy Grand Matron  
WILLIAM A. DUVALL,  
Most Worthy Grand Patron
